

NCEAC BS Artificial Intelligence – Zero Visit

On **4th July, 2025**, Salim Habib University welcomed the **NCEAC (National Computing Education Accreditation Council)** team for the **BS Artificial Intelligence – Zero Visit**, aimed at reviewing the program’s structure, resources, and compliance with national accreditation standards. The evaluation included a detailed look at the curriculum, faculty qualifications, laboratory facilities, and the program’s ability to support practical and research-oriented learning in AI.

The evaluators appreciated SHU’s commitment to strengthening its AI program and promoting modern, industry-relevant education. They shared valuable recommendations to further enhance academic quality, improve facilities, and support continuous growth. The visit marked an important step in ensuring the BS Artificial Intelligence program meets national expectations and maintains high academic standards.
