

NCEAC BS Computer Science Change of Scope Visit

On 17th May, 2024, Salim Habib University hosted the **NCEAC (National Computing Education Accreditation Council)** team for the **BS Computer Science Change of Scope Visit** to assess the program's readiness for expanded offerings. The visit included a detailed review of the curriculum, faculty qualifications, laboratory facilities, and overall alignment with NCEAC accreditation standards. The evaluators also met with faculty and staff to discuss teaching practices and quality assurance measures.

The NCEAC team acknowledged SHU's efforts to strengthen its computing programs and maintain strong academic quality. They provided constructive recommendations to further enhance program relevance, improve resources, and support continuous development. The visit marked an important step in advancing the BS Computer Science program and reinforcing SHU's commitment to academic excellence.
