

## NCEAC BS Software Engineering – Zero Visit

On **15th August, 2024**, Salim Habib University hosted the **NCEAC (National Computing Education Accreditation Council)** team for the **BS Software Engineering – Zero Visit**, conducted to evaluate the program’s initial readiness for accreditation. The team reviewed the proposed curriculum, faculty profiles, lab infrastructure, and academic resources to ensure alignment with national standards for launching a quality Software Engineering program.

The evaluators acknowledged SHU’s efforts to build a strong foundation for the new program and emphasized the importance of continuous improvement and industry-relevant practices. They provided helpful recommendations to strengthen academic planning, enhance facilities, and support future development. This visit marked a key milestone in establishing the BS Software Engineering program at SHU.
